

WIRELESS REMOTE AND SPEAKER LIGHTING CONTROLLER MODULE

CODE:

MS-RGBRC

KEY FEATURES

WIRELESS REMOTE CONTROL

Enjoy full control of the illumination options and functions of Fusion's RGB speakers with the MS-RGBRC wireless remote controller.

The wireless remote controller is portable and will function up to 10m from the speaker lighting controller module.

CONTROL OF THE LED ILLUMINATION ON FUSION'S RGB SPEAKERS

Enhance your on-board audio entertainment experience with the MS-RGBRC remote controller for Fusion's RGB speakers.

Simply select your desired color, brightness, speed and mode to set the tone or match the LEDs to your music, taking your entertainment experience to the next level. You can control the lighting in three lighting zones all from the one remote.

Note: For control of additional lighting zones, additional speaker lighting controller modules must be purchased.

STATIC AND DYNAMIC COLOR OPTIONS

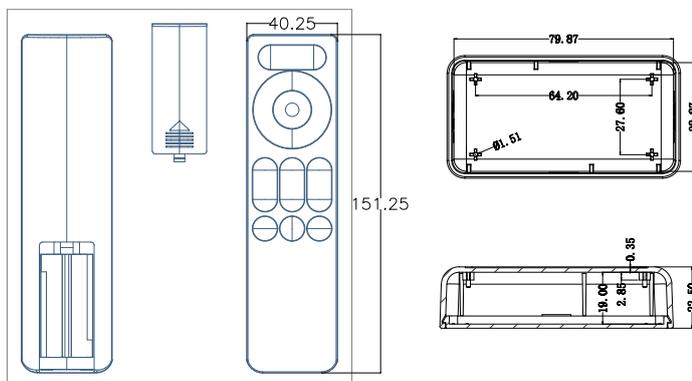

A range of colors are available in both static and dynamic modes with the RGB speakers to complement your music and enhance your on-board audio entertainment experience.

Select one of the 12 colors available on the remote, or change modes to cycle automatically through the color range with one of the 16 speed options.

INTUITIVE TOUCH REMOTE CONTROL

The MS-RGBRC wireless remote features easy to use touch controls, including an intuitive color select wheel to easily change the lighting on Fusion's RGB speakers.
