Boaters in US and Canada can subscribe to SiriusXM Marine's satellite-delivered Weather and Fish Mapping services via the SR200. The Weather service displays radar, lightning, storm warnings, sea surface temperatures, wind/wave info, and more directly on your Raymarine Axiom MFD. The Fish Mapping service provides fishing and weather info for angler's on their boat's display. Plus, for no additional cost, subscribers can use the Fish Mapping App onshore using a Wi-Fi or cellular connection to view their favorite fishing features available on the MFD, plus app exclusive features including ocean currents, historical data, convergence zones, custom routing and a measuring tool. Subscribers can also add over 150 channels of SiriusXM entertainment at a discount.

Compatibility: SXM Weather, Fish Mapping, and entertainment works with Raymarine's Axiom+, Axiom Pro and Axiom models of multifunction displays using the latest software update.
